

# What Animal Am I?

## Activity sheet

### Can you guess what animal I am?

My home is in northern Queensland, Australia.

I also have relatives over the sea in New Guinea.

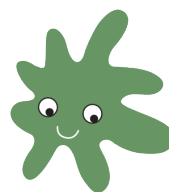

My family are called ratites – that's because I don't have a bone in my chest for flying muscles to hang on to, so I can't fly.

I am about 1.5m meters tall and have a bony helmet on my head that helps me crash through thick rainforest.

You can see I have bright blue and red skin on my neck. I'm also covered in something else that is glossy and black in colour.

What animal am I?

**Draw a picture of what animal you think this week's guest might be below!**
