

# What Animal Am I?

## Activity sheet

### Can you guess what animal I am?

I am a lizard who lives in tropical Savannah woodlands throughout northern Australia and southern New Guinea.

I am usually arboreal, meaning I spend most of my time in the trees. However, I will head to the ground to look for food, or to fight over my territory.

I like to eat insects and small vertebrates like lizards and mice.

If you find me on a tree, I will hide by sliding around to the opposite side of the tree trunk.

If you frighten me on the ground, I can stand up on my hind legs and run to the nearest tree.

If you are still bothering me, I will open my mouth to a wide gape and spread out the large frill that usually lies in folds around my neck when I am at rest. Can you guess who I am?

**Draw a picture of what animal you think this week's guest might be below!**
