

What Animal Am I?

Activity sheet

Can you guess what animal I am?

Hello everyone! Can you guess who am?

I'm an Australian native that can be found in forests, woodlands and heaths of eastern Australia.

I have white feathers on my body, dark brown wings and brown tipped crest feathers. I have a straight beak, black eyes and a conspicuous dark brown eye-stripe through the face.

I eat mice, snakes, insects, small reptiles and the young of other birds. I have been known to take goldfish from garden ponds.

Prey is seized by pouncing from a suitable perch. Small prey is eaten whole, but larger prey is killed by bashing it against the ground or tree branch.

I am territorial and often sing as a chorus with my family to mark our territory.

Draw a picture of what animal you think this week's guest might be below!
